BOARD/SUBASSEMBLY TEST

A New Approach to Design for Test Improves Fault Coverage, *CAE Perspectives, David W. Daugherty, Contributing Editor, September, pp. 26-28.*

ASICs Provide Built-in Test Capability, *Les Parker, Robert Koelling, Giordano Associates, September, pp. 48-50.*

Board Test: Facing the Challenges of ASICs and Surface Mount, *Lindsey Vereen, Technical Editor, January, pp. 46-59.*

Board Test Responds to Evolving PCB Technology, *Lindsey Vereen, Editor, December, pp. 38-44.*

Build an Op Amp Circuit to Measure Current, *Test Tips, Michael Fettes, Borg Instruments Inc., December, pp. 62-63.*

Combinational Testers: Everything but the Kitchen Sink, *Product Roundup, Lindsey Vereen, Editor, June, pp. 66-68.*

Effective Switching Reduces Test Errors, *Grant Coyle, Keithley Instruments, August, pp.45-50.*

Electronic Test Automation Aids In-circuit Test, *CAE Perspectives, David W. Daugherty, Contributing Editor, July, pp. 26-27.*

Emulation Test Changes to Meet Demands of Microprocessor-Based Boards, *Bob McCullough, Associate Editor, June, pp. 42-49.*

Government Gives Rise to Advances in Soldering Technology, *Test Probes, Richard Comerford, Consulting Technical Editor, September, pp.18-21.*

Improving the Testability of SMT Boards, *Ron Robison, Everett/Charles Contact Products, July, pp. 65.*

Interoperability Testing for VME-Based Systems, *Fred Rehhausser, Motorola Inc., Microcomputer Div., November, pp. 40-43.*

Linking Design to In-Circuit Board Test, *Daniel A. Walsh, GenRad Inc., June, pp. 54-59.*

Making Surface-Mount PCBs Testable, *CAE Perspectives, David W. Daugherty, Contributing Editor, June, pp. 25-27.*

Measure Low-Value Resistance In-Circuit, *Test Tips, Steven M. Gallagher, Teradyne Inc., November, pp. 54-56.*

Measuring Ripple, Noise During Power-Supply Test, *Test Tips, Denis Sugrue, Intepro Systems Inc., October, pp. 74-75.*

Military Test: Downsizing and Standardization, *Bob McCullough, Associate Editor, November, pp. 26-29.*

Moving Testability Issues Forward in the Design Cycle, *Joseph A. Prang, Valid Logic Systems, April, pp. 38-42.*

Phase-Margin Analysis Is Critical to Disk-Drive Test, *Dave Roscoe, Cambrian Systems Inc., October, pp. 30-39.*

Software Takes the Sting Out of Functional Test Development, *CAE Perspectives, David W. Daugherty, Contributing Editor, August, pp. 22-23.*

Switching Systems Speed Test and Add Flexibility, *Doug Kirsop, Keithley Instruments, May, pp. 40-46.*

Testing for Arc Breakdown, *Ramon Alvarez, Qualitec Technologies Inc., September, pp. 71.*

The Sources of Connectivity Data for Bare-Board Testing, *CAE Perspectives, David W. Daugherty, Contributing Editor, April, pp. 22-24.*

Thermal Analysis Speeds SMT Design, *Neal Jenkins, Motorola Microcomputer Div., Jerry Fireman, Jerry Fireman Inc., September, pp. 44-47.*

Traditional Test Faces Manufacturing Demands, *Richard Comerford, Consulting Technical Editor, December, pp. 58-61.*

Tough Board Test Problems Solved with Boundary Scan, *Peter Hansen, Terry Borroz, Teradyne Inc., June, pp. 34-40.*

Using CASE Tools Speeds Functional Test Development, *David C. Bullis, Joe Powell, Summation Inc., January, pp. 34-38.*

Where the Probe Meets the Pad: Designing Testable SMT Boards, *Joseph A. Prang, Valid Logic Systems, September, pp. 36-42.*

Word Generators Enhance Digital Testing, *Dale Johnson, Interface Technology, February, pp. 41-45.*

COMPUTERS/SOFTWARE

Computer Industry Trends, *PC News and Views, J. Richard Hines, Contributing Editor, June, pp. 28-29.*

Creating Documentation, Data Sheets, and Manuals, *PC News and Views, J. Richard Hines, Contributing Editor, March, pp. 26-29.*

Debuggers Speed Test and Data Analysis Program Development, *PC News & Views, J. Richard Hines, Contributing Editor, August, pp. 24-25.*

DOS-Extenders Give Your PC Programs Minicomputer Power, *PC Views, J., Richard Hines, Contributing Editor, December, pp. 24-27.*

IEEE-488 DOS Drivers Allow Bus Control from Spreadsheets, *Steve Lekas, IOtech Inc., April, pp. 44-46.*

Learning C, *PC News and Views, J. Richard Hines, Contributing Editor, February, pp. 18-22.*

Low-Cost Productivity Tools for Your PC, *PC News and Views, J. Richard Hines, Contributing Editor, January, pp. 22-24.*

Managing Information in a Test Engineering Environment, *PC News & Views, J. Richard Hines, Contributing Editor, July, pp. 28-29.*

Nine Sayings for Computer Buyers, *PC News and Views, J. Richard Hines, Contributing Editor, May, pp. 22-25.*

PCs Expand Capabilities to Meet Data-Acquisition Demands, *Bob McCullough, Associate Editor, March, pp. 48-51.*

RISC Processors Offer New Challenges for Logic Analyzers, *Bob McCullough, Associate Editor, June, pp. 50-64.*

Software Solutions for PC-Based Instrument Control: Part I, *Tim Dehne, National Instruments Corp., September, pp. 52-57.*

Software for PC-Based Instrument Control: Part II, *Tim Dehne, National Instruments, October, pp. 58-60.*

The Poop on OOP: Object-Oriented Programming, *PC News & Views, J. Richard Hines, Contributing Editor, September, pp. 30-32.*

The Poop on OOP, Part II: Programming Languages and Tools, *PC Views, J. Richard Hines, Contributing Editor, October, pp. 22-25.*

There Is No Such Thing as Too Much Data or Too Much Code, *PC Views, J. Richard Hines, Contributing Editor, November, pp. 16-20.*

Thermal Analysis Speeds SMT Design, *Neal Jenkins, Motorola Microcomputer Div., Jerry Fireman, Jerry Fireman Inc., September, pp. 44-47.*

Traditional Test Faces Manufacturing Demands, *Richard Comerford, Consulting Technical Editor, December, pp. 58-61.*

UNIX in the ATE World: Guru or Daemon? *Test Probes, Lindsey Vereen, Technical Editor April, pp. 16-17.*

Using CASE Tools Speeds Functional Test Development, *David C. Bullis, Joe Powell, Summation Inc., January, pp. 34-38.*

Using Spice to Debug Test Hardware, *Test Tip, J. Richard Hines, Contributing Editor, August, pp. 56-57.*

DESIGN FOR TEST

A New Approach to Design for Test Improves Fault Coverage, *CAE Perspectives, David W. Daugherty, Contributing Editor, September, pp. 26-28.*

ASICs Provide Built-in Test Capability, *Les Parker, Robert Koelling, Giordano Associates, September, pp. 48-50.*

Design-for-Test Gets a Boost from Proposed Bus Standard, *Test Probes, Lisa Gillette-Patrick, Managing Editor, Production, February, pp. 14.*

Electronic Test Automation Aids In-circuit Test, *CAE Perspectives, David W. Daugherty, Contributing Editor, July, pp. 26-27.*

Fault Grading: Test Analysis By Design, *Frank Binnendyk, Paul Remseis, Mentor Graphics Corp., Design and Analysis Div., March, pp. 32-37.*

Linking Design to In-Circuit Board Test, *Daniel A. Walsh, GenRad Inc., June, pp. 54-59.*

Making Surface-Mount PCBs Testable, *CAE Perspectives, David W. Daugherty, Contributing Editor, June, pp. 25-27.*

Moving Testability Issues Forward in the Design Cycle, *Joseph A. Prang, Valid Logic Systems, April, pp. 38-42.*

Software Takes the Sting Out of Functional Test Development, *CAE Perspectives, David W. Daugherty, Contributing Editor, August, pp. 22-23.*

The Importance of Early CAE Methodology Decisions: Part I, *CAE Perspectives, David W. Daugherty, Contributing Editor, January, pp. 20-21.*

The Importance of Early CAE Methodology Decisions: Part II, *CAE Perspectives, David W. Daugherty, Contributing Editor, February, pp. 16-17.*

The Importance of Early CAE Methodology Decisions: Part III, *CAE Perspectives, David Daugherty, Contributing Editor, March, pp. 16-23.*

The Sources of Connectivity Data for Bare-Board Testing, *CAE Perspectives, David W. Daugherty, Contributing Editor, April, pp. 22-24.*

Tough Board Test Problems Solved with Boundary Scan, *Peter Hansen, Terry Borroz, Teradyne Inc., June, pp. 34-40.*

Using Spice to Debug Test Hardware, *Test Tip, J. Richard Hines, Contributing Editor, August, pp. 56-57.*

Where the Probe Meets the Pad: Designing Testable SMT Boards, *Joseph A. Prang, Valid Logic Systems, September, pp. 36-42.*

ENVIRONMENTAL TEST

Burn-in Test Systems Screen Boards for Latent Problems, *Andy Santoni, Contributing Editor, April, pp. 56-59.*

Finding The Most Effective Stress-Screening Strategy, *Charles E. Shalvoy, Therma-Wave Inc., March, pp. 42-46.*

Reliability Testing Surges Forward, *Richard Comerford, Consulting Technical Editor, December, pp. 52-56.*

The Basics of Environmental Testing, *Richard Comerford, Consulting Technical Editor, November, pp. 30-35.*

Testing for CMOS Latch-up Immunity, *Saeed Malik, Larry Jorstad, ISE Labs Inc., July, pp. 30-35.*

Thermal Analysis Speeds SMT Design, *Neal Jenkins, Motorola Microcomputer Div., Jerry Fireman, Jerry Fireman Inc., September, pp. 44-47.*

IC/COMPONENT TEST

A New Approach to Deisgn for Test Improves Fault Coverage, *CAE Perspectives, David W. Daugherty, Contributing Editor, September, pp. 26-28.*

Alternatives to Laser Trim: Zapping Zeners, Blowing Fuse Links, *Caeb Brown, Elantrec Inc., September, pp. 62-70.*

ASICs Provide Built-in Test Capability, *Les Parker, Robert Koelling, Giordano Associates, September, pp. 48-50.*

ASIC Verification: How Much Is Enough,? *Wendell Damm, Tektronix Inc., September, pp. 58-60.*

Automatic Device Handlers Are Tailored to Chip-Carrier Packages, *Andy Santoni, Contributing Editor, June, pp. 50-52.*

Choosing Device Handlers: A User's Viewpoint, *John Chang, Analog Devices, Semiconductor Div., October, pp. 40-45.*

Component Test: Bigger Problems, Better Tools, *Lindsey Vereen, Technical Editor, January, pp. 40-44.*

Explore IC Signals and Nodes with Electron-Beam Probers, *Andy Santoni, Contributing Editor, April, pp. 54-55.*

Fast Accurate Calibration Improves Device-Test Systems, *Andy Santoni, Contributing Editor, May, pp. 47-51.*

Machine Vision in Offline Laser Repair, *Kathy McWalter, Cognex Corp., November, pp. 44-46.*

Mixed-Signal Test Strategies for High-Performance Graphics Chips, *Lewis Zook, Tektronix Inc., August, pp. 32-36.*

New Chip Technologies for ASIC Test Come to the Fore, *Test Probe, Richard Comerford, Consulting Technical Editor, October, pp. 14-16.*

New Technologies Keep IC Test Active, *Lindsey Vereen, Editor, December, pp. 58-61.*

PLD Test and Verification, *David Motarjemi, Ryan Teixeira, Logical Devices Inc., November, pp. 48-53.*

Testing for CMOS Latch-up Immunity, *Saeed Malik, Larry Jorstad, ISE Labs Inc., July, pp. 30-35.*

The Impact of Gallium Arsenide on IC Testing, *Philip W. Wallace, Rick Hulse, ANADIGICS Inc., April, pp. 36-37.*

Thin-Film-Hybrid Wafer-Probe Card Promises Speed and Density, *Larry Younkin, Tektronix IC Probing Systems, May, pp. 26-30.*

Using Liquid Crystals Helps Pinpoint Defects in Microcircuits, *Dr. Henry Lyden, Temptronic Corp., March, pp. 38-40.*

Using Spice to Debug Test Hardware, *Test Tip, J. Richard Hines, Contributing Editor, August, pp. 56-57.*

Verification Systems Proliferate As the ASIC Market Grows, *Product Roundup, Lindsey Vereen, Technical Editor, February, pp. 46-51*

Word Generators Enhance Digital Testing, *Dale Johnson, Interface Technology, February, pp. 41-45.*

INSTRUMENTATION

100-MHz Oscilloscopes: Look Beyond Bandwidth, *Product Roundup, Bob McCullough, Associate Editor, October, pp. 63-73.*

A Comparison of IEEE-488 to VXI, *The VXIbus Connection, Allen Hollister, Contributing Editor, April, pp. 18-21.*

Effective Switching Reduces Test Errors, *Grant Coyle, Keithley Instruments, August, pp.45-50.*

For Timing Measurements, Bet On a DSO, *David White, Mark Tilden, Tektronix Inc., August, pp. 38-42.*

IEEE-488 DOS Drivers Allow Bus Control from Spreadsheets, *Steve Lekas, IOtech Inc., April, pp. 44-46.*

Instrumentation Branches Out in 1989, *Bob McCullough, Associate Editor, December, pp. 30-35.*

Instrumentation in 1988: Few Breakthroughs, but More Choices, *Bob McCullough, Associate Editor, January, pp. 65-70.*

Making Time-Varying Frequency Measurements, *Jon Khazam, EIP Microwave, October, pp. 46-52.*

Making Virtual Instruments a Reality: Part I, *The VXIbus Connection, Allen Hollister, Contributing Editor, June, pp. 20-22.*

Making Virtual Instruments a Reality: Part II, *The VXIbus Conneciton, Allen Hollister, Contributing Editor, July, pp. 22-24.*

Making Virtual Instruments a Reality: Part III, *The VXIbus Connection, Allen Hollister, Contributing Editor, August, pp. 18-19.*

Military Test: Downsizing and Standardization, *Bob McCullough, Associate Editor, November, pp. 26-29.*

MXIbus Extends the VXIbus to Multiple Mainframes and PCs, *Ron Wolfe, National Instruments Corp., April, pp. 31-35.*

New DSOs Grab Glitches, *Greg Tate, LeCroy Corp., October, pp. 54-57.*

New Instrumentation Architectures Simplify System Timing Problems, *James J. Truchard, Audrey F. Harvey, National Instruments, February, pp. 36-40.*

PCs Expand Capabilities to Meet Data-Acquisition Demands, *Bob McCullough, Associate Editor, March, pp. 48-51.*

Rembering Shared Memory, The VXIbus Connection, *Ron Wolfe, Contributing Editor, November, pp. 14-15.*

RISC Processors Offer New Challenges for Logic Analyzers, *Bob McCullough, Associate Editor, June, pp. 50-64.*

Selecting a Protocol Analyzer: Consider the User, *Product Roundup, Bob McCullough, Associate Editor, August, pp. 52-55.*

Scope Wars: The User Interface, *Bob McCullough, Associate Editor, November, pp. 36-39.*

Software Solutions for PC-Based Instrument Control: Part I, *Tim Dehne, National Instruments Corp., September, pp. 52-57.*

Software for PC-Based Instrument Control: Part II, *Tim Dehne, National Instruments, October, pp. 58-60.*

Switching Systems Speed Test and Add Flexibility, *Doug Kirsop, Keithley Instruments, May, pp. 40-46.*

Tapping into the Power of VXI, The VXIbus Connection, *Allen Hollister, Contributing Editor, May, pp. 18-21.*

Tek Giveaway Separates Wheat from Chaff, *Test Probes, Robert M. Clarke, Contributing Editor, December, pp. 14-16.*

The VXIbus Architecture and Communication Structures, *The VXIbus Connection, Allen Hollister, Contributing Editor, September, pp. 24-25.*

The VXIbus Selection Process, *The Vxibus Connection, Louis J. Klahn, Contributing Editor, December, pp. 20-22.*

VXIbus Moves from Promise to Performance, *Bob McCullough, Associate Editor, January, pp. 60-64.*

VXIbus Products Tackle System-Level Issues, Bob McCullough, Associate Editor, May, pp. 34-36.

VXIbus System Specification: Past, Present & Future, *The VXIbus Connection, David Haworth, Contributing Editor, October, pp. 18-20.*

PROFESSIONAL TEST

ATE & I West to Feature "Voyager" Presentation, *Test Probes, Lisa Gillette-Patrick, Managing Editor, December, pp. 18.*

1989 Career and Salary Survey: CAE Is Taking Root, *Lisa Gillette-Patrick, Managing Editor, August pp. 28-31.*

ATE & I Focuses on the Future, *Test Probes, Lisa Gillette-Patrick, Managing Editor, Production, June, pp. 18.*

Autotestcon Highlights System Readiness in the '90s, *Test Probes, Lisa Gillette-Patrick, Managing Editor, September, pp. 22.*

Focus on the Customer, *Final Test, Irwin H. Pfister, Schlumber Technologies Inc., September, pp. 84.*

High Tech Issues Highlight Electro/89 Conference and Exhibition, *Test Probes, Lisa Gillette-Patrick, Managing Editor, Production, April, pp. 15.*

HP President's Keynote Speech Will Kick Off ATE & I West Conference Program, *Test Probes, Lisa Gillette-Patrick, Managing Editor, Production, January, pp.18-19.*

"I'm Not Gonna Pay a Lot For This Tester," *Final Test, Harold T. McAleer, October, p. 88.*

Quality Issues and Boundary Scan Featured at ITC '89, *Test Probes, Lindsey Vereen, Editor, August, p. 16.*

"So, What Is It You Do For a Living?" *Final Test, Joe Levesque, Aetrium Inc., December, p. 76.*

VXIbus Consortium Members Honored with Fluke Awards, *Lisa Gillette-Patrick, Managing Editor, July, pp. 20.*

We Can Reduce the Cost of Test, *Final Test, Robert Chen, AOT Corp., November, p. 76.*

WESCON Anticipates 45,000 Attendees, *Test Probe, Lindsey Vereen, Editor, November, pp. 13.*

SYSTEM TEST

A Comparison of IEEE-488 to VXI, *The VXIbus Connection, Allen Hollister, Contributing Editor, April, pp. 18-21.*

High-Voltage Insulation Testing Protects Factory Floor Equipment, *A.O. Reynolds, Biddle Instruments, March, pp. 52-62.*

Interoperability Testing for VME-Based Systems, *Fred Rehhausser, Motorola Inc., Microcomputer Div., November, pp. 40-43.*

Making Time-Varying Frequency Measurements, *Jon Khazam, EIP Microwave, October, pp. 46-52.*

Making Virtual Instruments a Reality: Part I, *The VXIbus Connection, Allen Hollister, Contributing Editor, June, pp. 20-22.*

Making Virtual Instruments a Reality: Part II, *The VXIbus Connection, Allen Hollister, Contributing Editor, July, pp. 22-24.*

Making Virtual Instruments a Reality: Part III, *The VXIbus Connection, Allen Hollister, Contributing Editor, August, pp. 18-19.*

Measuring Ripple, Noise During Power-Supply Test, *Test Tips, Denis Sugrue, Intepro Systems Inc., October, pp. 74-75.*

Military Test: Downsizing and Standardization, *Bob McCullough, Associate Editor, November, pp. 26-29.*

MXIbus Extends the VXIbus to Multiple Mainframes and PCs, *Ron Wolfe, National Instruments Corp., April, pp. 31-35.*

New DSOs Grab Glitches, *Greg Tate, LeCroy, October, pp. 54-57.*

Phase-Margin Analysis Is Critical to Disk-Drive Test, *Dave Roscoe, Cambrian Systems Inc., October, pp. 30-39.*

Rembering Shared Memory, *The VXIbus Connection, Ron Wolfe, Contributing Editor, November, pp. 14-15.*

Selecting a Protocol Analyzer: Consider the User, *Product Roundup, Bob McCullough, Associate Editor, August, pp. 52-55.*
